Coronavirus – Staubli Fluid Connectors Division Information

Dear customers,

Stäubli is fully committed to you and remains at your side during this time of uncertainty. We would like to inform you about the current situation at Stäubli Fluid Connectors in light of the coronavirus outbreak.

First and foremost, the health and safety of all our employees is very important to us and is our top priority. As an employer it is our obligation to do our part to safeguard employee health. We always follow any recommendations given by our local authorities.

Multiple countries have taken actions in the past days like nationwide lockdowns that impact our supply chain and have severe consequences on our activities. This not only affects us but also our customers and suppliers in various industries in their operations.

The lockdowns will negatively affect the manufacturing and the shipment of products and spare parts. This particularly affects our Fluid Connectors business.

We sincerely regret any inconvenience and hope you will understand this exceptional situation. We will be able to ensure a minimal level of service for our customers. If you have any questions, please refer to your usual Stäubli contacts who remain at your entire disposal to answer all your questions.

We continue to monitor the fast changing situation and we will take appropriate action where required. We will do our utmost to minimize the impact on your activity and will regularly keep you informed. We would like to express our gratitude for your understanding and thank you for your loyalty in these difficult times.

Best regards,

Stäubli Fluid Connectors Division

Etienne LEPEULE
General Division Manager
